

We at Technomedics Int'l (Pvt.) Ltd are committed to provide affordable healthcare solutions to the Sri Lankan market while meeting all applicable legal requirements and other industry related standards and requirements. In order to accomplish above we maintain a quality management system conforming to ISO 9001:2015 at our organization.

We are committed to:-

- excel in our operations including;
 - importing, distribution and after sales service of medical equipment
 - design, build and installation of piped medical gas systems
 - installation of healthcare infrastructure
 - sale of medical equipment and related consumables
- produce quality first time right and being faster and competitive.
- continuously innovate and improve our products and services as a habit.

To do so, we will:-

- set and deploy SMART objectives and KPIs to timely monitor and improve our processes management standards.
- develop competence levels of all our employees and outsourced service providers through suitable training and development and regular supervision.
- ensure that the infrastructure and work environment conducive with state of the art technology.
- align ourselves with the most competent and reliable base of external service providers available in the industry, who meet our requirements consistently.
- sustain our organization through timely reactions to all risks and opportunities arise in the internal and external environment and between relevant stakeholders and the organization.
- continually maintain and improve the effectiveness of our Quality Management System (QMS)
